Digital Reconfigurable Additive Manufacturing  
facilities for Aerospace

**UK Aerospace Additive Manufacture in the Supply Chain**  
**Wednesday 2<sup>nd</sup> May 2018**  
**Manufacturing Technology Centre, Coventry**

**AGENDA**

- 08.30 **Registration, coffee**
- 09.00 **Welcome** - Andrew Mair, Chief Executive, MAA and Katy Milne, MTC
- Lightweight Pipe End Fittings** - Mike Andreae, Director of Technology & Improvement, Sigma Precision Components
- The Challenges of Producing Fixtures in AM** - Karan Singh, JJ Churchill
- Additive Manufacturing: From Novelty to Mainstream** – Paul Evans, Head of Manufacturing Technologies & Processes, Airbus
- DRAMA** – a project to enable adoption of additive manufacturing by the UK's aerospace sector – Katy Milne, MTC
- 10.45 **Coffee break/networking**
- 11.00 **Workshop Activity** – Andrew Mair and MAA team  
Workshop feedback plenary session
- 12.30 **Lunch**
- 13.30 **Additive for Ceramic Moulding Tooling** - Keith Fulford, Gardner Aerospace
- ATI AM Strategy** – Mark Summers, Aerospace Technology Institute
- Additive Manufacturing at BAE Systems and the “Supply Chain Implications”** – John Dunstan
- AM Solution Centre** – Jon Porter, Renishaw
- How to engage with the DRAMA programme** – Bridget Day
- 15.30 **Tea**
- 16.00 **Tours in phased groups and Networking**
- 17.00 **Close**
