

NET ZERO INNOVATION NETWORK

WARWICK MANUFACTURING GROUP

NET ZERO INNOVATION NETWORK

- Support businesses on their journey to Net Zero
- Support and de-risk implementation of sustainable manufacturing practices into businesses
- Create the space for shared best practices between companies
- Unpack the complexities that come with sustainability and make it simple

WHAT'S IN IT FOR ME?

► Innovation Project

Work with WMG to introduce technical innovation to your business for a positive impact on both environment and profit

► Collaboration Events

Collaboration events with expert speakers and workshops on sustainability topics relevant to the sector

► Net Zero Readiness Assessment

Online tool to assess how your business is prepared to meet net zero greenhouse gas emissions targets

► Energy Survey

Factory energy assessment and access to grants to part fund any improvements identified

► Road Map

With the cohort, generate a 10 year roadmap and action plan for your business to capitalise on further opportunities

► Best Practice Visit

Observe sustainability innovations in practice at UK Manufacturing businesses.

BEST PRACTICE VISITS

BUSINESS ENERGY ADVICE SERVICE

- **Fully funded** energy intensive assessments for SMEs across the West Midlands
- Will provide recommendations for energy reduction, helping to reduce costs
- An opportunity to apply for a grant for commercial and industrial SMEs to facilitate investment in energy efficiency measures
